

"Innovative training – Augmented reality for green food"

Project IT-ARGF website is now available online

Project "Innovative Training – Augmented Reality for Green Food" (IT-ARGF) responds to environmental priorities and the fight against climate change, and contributes to innovation and flexibility of opportunities in vocational education and training. The IT-ARGF project aims to provide technological tools and training for the use and application of these tools in the daily work of farmers. The project will involve researchers and professors who will design an educational programme, who will taking into account the level of education, as well as logistical and local factors of farmers. The project applies the latest technological trends in environmental protection and organic farming through augmented reality. The educational and technical tools provided by the IT-ARGF project are digitally accessible anywhere, anytime

The project is funded by the Erasmus+ Programme of the European Commission

Project Partners:

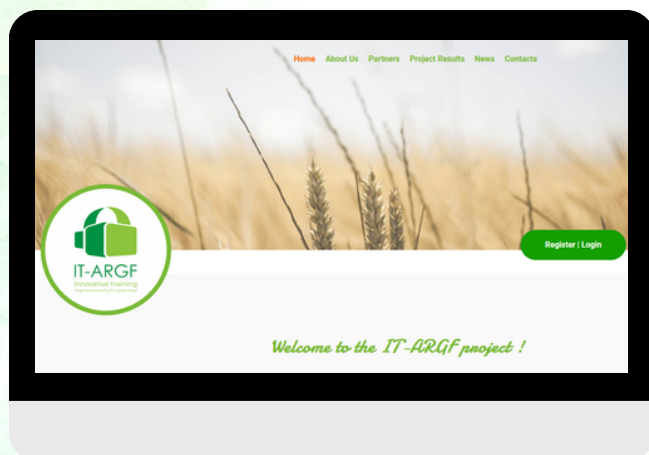

- Community Development Institute (The Republic of North Macedonia)
- Avrasya Yenilikçi Toplum Derneği Fthia in action – EUROASIA Innovative Society Association (Turkey)
- ΣΥΛΛΟΓΟΣ ΔΡΑΣΗΣ ΚΑΙ ΕΘΕΛΟΝΤΙΣΜΟΥ – FTHIA IN ACTION (Greece)
- Galileo Progetti - Hungary
- INERCIA DIGITAL SL – Spain

IT-ARGF official website represents a repository of the project's outputs, results, news and contacts, and will be the platform for target groups to access IT-ARGF resources and training materials.

IT-ARGF Platform is the main showcase of project's results and its largest and most tangible channel for international visibility, and is available in 5 languages (EN, MK, TR, GR, HU, ES) with all of its content completely available for free.

The website will host and integrate all the main achievements of the consortium; each section of the IT-ARGF website is a stand-alone library of its corresponding output.

IT-ARGF website is now available online on the following link: <http://itargfproject.infinityc-group.com/>
